OUR STORY

Foresteel is an development and production company located in Estonia with focus on offering time-saving tools for grounds maintenance tasks. We specialize in manufacturing high quality tipping trailers, leaf trailers, mobile watering and pressure washing equipment for municipalities, groundskeepers, horticulture and greencare companies, park maintenance companies, property managers, and hobby users around the world.

As part of our development process, we always go the extra mile to fully understand our customers' needs. That allows us to provide turn-key solutions that are actually needed. Our complete ready-to-work Leaf Trailers, Irrigation Solutions and Mobile Pressure Washers are all examples of that.

With constant product development, we aim to surpass the needs of our customers and always supplement our product series with a wide selection of accessories to allow our product users to make their investments more multifunctional and profitable.

First priority is the customer. We live by this value and consider the consumer in every decision we make, no matter how big or small.

DESIGN AND PRODUCTION

Our whole product range is designed to be easily transportable and simple to use. At Foresteel up-to-date technologies are used to design, develop and produce the product series. In design, the latest CAD software is being used to best optimize our product's strength and parameters. We use high-precision production technologies like laser cutting and CNC bending to offer premium quality products to our customers. To ensure long-term quality, we invest a lot of work into high-quality manufacture. All welding and construction designs are based on ISO standards.

We provide exceptional products and superior service to our consumers, resulting in premium value.

ACCESSORIES

ACCESSORIES FOR FT-600

Designed to get things done. Combine your trailer with accessories you need.

Leaf cleanup accessories

MIDvac

Midrange leaf vacuum with 13 HP B&S engine. Best midrange unit.

PROvac

Powerful leaf vacuum with electric start. Best fit for high demand tasks.

Underframe unit

Simple yet efficient suction unit for easier cleaning behind any towing machine.

Watering system

Compact irrigation system with 12V or gasoline pumping system. 300/600 L

Introducing the lightweight one

- ✓ Rigid and strong A-frame construction
- ✓ Platform type tipping body
- ✓ Powerful hydraulic tipping
- ✓ Premium modular accessories
- ✓ Ultra lightweight
- ✓ High quality build and components
- ✓ Proven flexibility - good maneuvering in narrow spaces
- ✓ Greencare tires with minimal turf damage
- ✓ Optimal size based on machine width

Efficient setup: mowing deck connection

Underframe suction unit - Best alternative to mowing deck connection

FT-1600

HYDRAULIC TIPPING TRAILER

Now with galvanized frame, side panels and corner posts!

The light yet solid 1600 kg loading capacity tipping trailer is definitely the one to look for. The multifunctional hydraulic tipping trailer with platform-type body is designed for smaller machinery like compact tractors, electric vehicles, compact loaders, ATV's and UTV's.

PERFECT FIT FOR

- Small tractors
- Compact loaders
- ATVs and UTVs
- Electric vehicles

FTW IRRIGATION PLATFORMS

PROFESSIONAL MOBILE WATERING & FIREFIGHTING SYSTEMS FOR ANY VEHICLE

In one set, a compact ready-to-use watering, water transportation, irrigation, and firefighting bowser. Tanks that are durable and rigid, as well as pumping systems that are optimized, are all assembled on a solid steel frame with forklift pockets. Grounds maintenance and horticultural enterprises, park maintenance managers, farms and municipality managers can all benefit from this irrigation solution. Available in 300, 600, 1000, 2000 liter tank versions.

TRANSPORT AND USE

- On a trailer, van, pickup truck
- On a UTV, golf cart
- With forklift/loader
- on any other platform

FT-WATER MODEL RANGE

Tank volumes: 300/600/1000/2000 L

Complete set with everything needed

Fully autonomous irrigation system

Forkliftable steel underframe

Rigid plastic tanks

Automatic roll-in hose reel

See overview at www.foresteel.eu

BENEFITS

- Seasonal irrigation duties can be completed in less time and for less money.
- Minimize water wastage upto 50% and cut workforce requirements.
- Fully autonomous and mobile system ready for work anywhere.
- Less work and hassle. Cut workforce requirements upto 60%
- Your own unit is always available.

WATERING OPTIONS/ACCESSORIES

Choose options to fit your needs.

Watch videos from www.foresteel.eu

Complete & fully autonomous available with range of extras:

- Tank baffles against sloshing
 - Algae preventing green tank
 - Zero-Emission pump
 - Range of watering tools like flower basket lance, firefighting nozzle etc.
 - Water flow meter
 - Tank level indicator
- Learn more from website

Quiet & Emissionless action (optional on all FTW units)

With the optional Zero Emission electrical pumps, you may go emission-free.

Fully autonomous systems with integrated electric pump, battery pack and included charger, give you quiet and emissionless work.

- ✓ A range of portable watering tanks that is ready to use in minutes and will help you get through your errands faster.
- ✓ Transportable and compatible with a wide range of trailer beds, trucks, and pickup bodies.
- ✓ Easy to use by anyone with no special training needed. The only water bowser you need.

FTW IRRIGATION TRAILERS

MOBILE WATERING TRAILER READY FOR WORK

Complete mobile watering trailers ready for irrigation tasks on-site. Equipped with everything needed, built on a solid steel chassis for heavy duty use. Easy to use by anyone with no special training needed. With the optional Zero Emission electrical pumps, you may go emission-free.

FTW IRRIGATION TRAILERS/WATER BOWSERS

Tank volumes: 300/600/1000/2000 L

Complete set with everything needed

Fully autonomous irrigation system

Broad turf wheels, adjustable coupling height

Modular design, possible to use as a platform

See overview at www.foresteel.eu

BAFFLES (optional)

Baffles against sloshing required for high speed use.

Watch product videos at www.foresteel.eu

Irrigation boom

Remote controlled telescopic irrigation boom for FTW-Irrigation Trailers & Platforms.

FEATURES & BENEFITS

- Fully self-contained towable irrigation system
- Reliable and simple to deal with
- Compact size and low self weight, easy to tow and maneuver
- Everything needed for irrigation operations is included in this ready-to-work system
- PE plastic tank on galvanized steel chassis
- D50mm ball coupling; height adjustable
- Powerful Honda pump with automatic hose reel
- 15m 3/4" irrigation hose + 7m suction hose
- Zero Emission low noise pumps available
- Intuitive to use with no extra training needed
- Used by many professionals with great results

OPTIONAL EQUIPMENT

Configure trailer for your needs.

Wide range of extras

Towing coupling, watering tools, filling inlets, water flow meters etc.

PW PRESSURE WASHERS

MOBILE PRESSURE WASHERS READY FOR ACTION INDEPENDENT OF POWER AND WATER RESOURCES

Fully autonomous mobile power washer with water tank, ready for action anywhere, any place. Water tank, pressure pump and hose system all integrated on a compact and rigid steel subframe with forklift pockets designed for self-installation on any vehicle. With Trailer Conversion Kit, it is convertible into a towable pressure washer for on-site use.

TRANSPORT AND USE

- On a trailer, van, pickup truck
- On a UTV, golf cart
- With forklift/loader
- on any other platform

| PW-SERIES MODEL RANGE |

GROUNDS MAINTENANCE SOLUTIONS

FORESTEEL TRAILERS STANDARD FEATURES

Foresteel trailer series is built on high quality components, thorough product development, design, and up to date production technologies. Expertise and experiences of our customers have always been the most important input in our product development by which optimized construction compact tipping trailers and easy-to-use solutions have been born from.

Features shown are standard for all trailer models if not noted otherwise.

High-solids glossy polyurethane paint with excellent weathering and abrasion resistance

Modular design - easy and quick installation of accessories and optional extras

Powder coated or galvanized side panels increase durability and aesthetic value

Quick swap foot positioning

Solid platform body

Wide greencare tires with enhanced puncture resistance for minimal turf damage

LED lights

Steel wire tip limiting

Discover the benefits of our trailers

- ✓ Durable and strong A-frame construction
- ✓ Wide range of usage possibilities with platform body
- ✓ Greencare tires for minimal turf damage
- ✓ Compact design - easy to maneuver in narrow spaces
- ✓ Optimal weight and size for small tractors, compact loaders, ATVs, UTVs and greencare machinery
- ✓ Modular design - add options and accessories like leaf vacuum, extensions and suction units
- ✓ Adjustable drawbar for connecting different machines
- ✓ Front panel openable and removeable
- ✓ Variety of modular accessories available

Introducing FT-trailer series

- ✓ High quality steels and optimized construction
- ✓ Powder coated side panels and extensions
- ✓ Premium components - well known suppliers
- ✓ Rotating hitch - safety in case of trailer rollover
- ✓ Drawbar nose weight safe for towing machine
- ✓ Galvanized frame, sides and corner posts
- ✓ Paint with excellent abrasion resistance
- ✓ Environmental friendly painting - platforms are powder coated for increased scratch resistance and durability
- ✓ All trailers are designed and manufactured to EU directives and own a CE certificate

Openable and removeable front panel makes it easy to haul overlength materials

Removeable side panels and corner posts

Integrated wheel chock holders for increased users safety

Strong platform body construction

High tipping angle and powerful hydraulic lift guarantees easy unloading

Rigid and strong A-frame

Electro hydraulic tipping option

Quick-adjust parking jack

Adjustable drawbar height

Flexible tandem/bogie axle on OFFROAD trailers increases ride stability and comfort

Rotating towing coupling increases users safety

Safety body prop

LEAF AND DEBRIS CLEANUP SOLUTIONS

LEAF VACUUM UNITS

- Powerful autonomous leaf & debris loaders

COMPLETE LEAF TRAILERS

- Fully equipped Leaf Collection Trailers ready for efficient and easy clearing of leaves and debris in parks and properties

LEAF VACUUM UNITS

GASOLINE POWERED LEAF VACUUMS

All Foresteel trailers are equippable with our leaf vacuums and are often used in combination with tractor mowing deck or underframe suction unit. For collecting leaves and mowed grass, cleaning turf and event areas of debris, wood chippings or similar materials. - ✓ Suitable models for your machinery

* Most efficient setup for One-Man-Job

+ UNDERFRAME SUCTION UNIT

This optional extra fitted to Foresteel trailers' frame and connected directly to vacuum makes collecting leaves and debris possible with any towing vehicle. The unit is towed under the trailer's frame, it is height adjustable and copies land on two rollers. It's copying capabilities make going over smaller bumps and hills easy and intuitive.

High quality tipping trailers,
leaf collection machines,
irrigation bowsers and pressure washers
