

LEAD THE CHARGE

CHANGING THE WAY YOU
POWER YOUR BUSINESS

CHANGING THE WAY YOU POWER YOUR BUSINESS

WHY GO ELECTRIC

Climate change and environmental concerns are accelerating the shift away from fossil fuels and towards more sustainable business practice. In grounds maintenance, Toro® is leading the way with the launch of a powerful new range of battery powered equipment, contributing towards a more sustainable business efficiency for professionals.

Calling on 100 years of expertise and engineering excellence, Toro's new range combines our proven mowing equipment with pioneering battery technology to deliver like-for-like performance with our petrol or diesel equivalent. Easy to maintain and cost-effective to run, they can also lower the total cost of ownership and contribute to greater business efficiency.

So join us today in leading the charge towards a more sustainable future.

POWERING POSITIVE CHANGE

Sustainability has never been a buzzword or box-ticking exercise at Toro – it's embedded in our thinking. Fully aligned with the United Nations' Sustainable Development Goals, we have a dual focus: on improving the beauty, productivity and sustainability of the land, and on helping our customers work more efficiently and effectively. Our acceleration towards a battery-powered future is central to this long-term commitment. Reducing carbon emissions in our operations, while powering professionals to work smarter means a positive change for everyone.

Performance, without compromise

Toro's high-quality batteries deliver comparable torque and power to petrol equipment, all at the simple touch of a button.

Mother nature approved

No engine exhaust emissions and quiet – just the power you need to complete the job the right way, right away.

Works around you

Battery-powered equipment is welcomed virtually everywhere and at any time of the day, giving you the freedom to work extended hours – or at times that suit you.

Comfort

Battery-powered equipment is quiet, enhancing ease of use and user comfort.

Simply simpler

The technology relies on minimal components, meaning it's quick and easy to maintain and service.

It could pay to switch

Easy to recharge from electric mains, Toro batteries are highly cost-effective.

Calculate your operational ROI (return on investment) and see why going electric may just be your best decision yet!

THE POWER BEHIND THE CHARGE

BOUNDARY BREAKING BATTERY TECHNOLOGY

For years, our cordless range of residential equipment has been powered by Toro's pioneering battery technology. We've built up insight, expertise and experience – and now we've applied it all to the professional market, adding extra power and features to give you the performance you need to get the job done.

Designed to run quieter and cooler than ever, Toro's Flex-Force and HyperCell® batteries offer more power, comfort and superior service life. Plus they've been rigorously put through their paces where it matters most – in the hands of professionals in the field. So wherever you're working, whatever the project, you can be confident they'll give you the run-time and torque you need to supercharge the day.

THE 60V MAX* FLEX-FORCE POWER SYSTEM™

Uncompromising by design

It's all in the name. The Flex-Force Power System is fully swappable across all of Toro's power tools, giving you the flexible power you need to get all your jobs done with one power source. No hassle, no compromise. It's also future-proofed, so as our range expands you can just pop in the battery and get to work.

HYPERCELL POWER SYSTEM®

Charged towards change

When developing the HyperCell battery system, Toro's designers put all their energy into creating a powerhouse of performance, efficiency and reliability. The goal was to enable commercial machines to run quieter and cooler for longer, allowing professionals to crack on with the job in hand and achieve quality results at the first time of asking. Mission accomplished.

LEAVE NOTHING BEHIND

MEET THE NEW BATTERY-POWERED RANGE

Naturally we've taken inspiration from our industry-leading petrol models, so you can expect the same high standards of innovation, efficiency and engineering expertise. You can also expect the same features, including MyRide and Horizon Technology as well as the Recycling and TURBO FORCE® decks. And whether you choose a ride-on, stand-on or walk-behind model, you can be confident it'll provide electrifying performance and superior control all day, every day. Because at Toro, we believe embracing change shouldn't mean leaving anything behind – and that's fitting for a range of mowers with zero engine exhaust emissions.

- LEGENDARY TURBO FORCE CUTTING DECK
- DESIGNED FOR PROFESSIONALS, BY PROFESSIONALS
- MAXIMISE PRODUCTIVITY AND MACHINE LIFE WITH HORIZON® TECHNOLOGY
- THE INSTANT POWER YOU DEMAND, THE SUPERIOR HANDLING YOU DESERVE
- DESIGNED FOR HASSLE-FREE, LOW-COST MAINTENANCE
- PRECISION CONTROL OVER GROUND SPEED AND BLADE-TIP SPEED
- SHARES THE SAME DNA AS TORO'S INDUSTRY-LEADING PETROL EQUIPMENT
- POWER THROUGH THE WHOLE DAY WITH A RANGE OF MODELS

53cm HD PROLINE

THE FUTURE OF MOWING, AVAILABLE TODAY

Get ready for hassle-free, engine exhaust emission-free, compromise-free mowing with the all-electric **Heavy Duty Proline**.

Cutting-edge durability

When the going gets tough, get tougher with the HD Proline. Built from the same legendary cast deck as its petrol-powered predecessor, it delivers performance you can trust.

Flexible modes

Will you ramp up the RPMs with Auto Mode, or choose Max Mode to lock in the highest possible RPMs to get the most precise, quality cut? Decisions, decisions.

Charging ahead

The power you're looking for with zero engine exhaust emissions and noise reduction, plus no more oil or filter changes with a 10Ah Flex-Force battery

eHoverPro™

GO ANYWHERE HOVER MOWERS

From bunker lips and tee boxes to treacherous turf and slopes, the eHoverPro delivers a first-class cut where wheeled mowers dare not go.

A cut above

The eHoverPro's powerful steel blade cutting system provides the kind of precision finish that keeps nylon wire trimmers awake at night.

Comfortably easier

Make light work of tricky slopes for longer, plus minimise fatigue thanks to effective airflow and weight balance.

Smart finish, smarter investment

The eHoverPro is fully compatible with the extensive range of Flex-Force Power System tools, batteries and chargers. Highly recommended with 7.5Ah Flex-Force Battery

Tool Selection

REVOLUTION™ PROFESSIONAL HANDHELD PRODUCTS

INTERCHANGEABLE AND INDISPENSABLE

Three high-performance tools. One battery range.

By exchanging batteries across the REVOLUTION Professional handheld product range, you can switch between jobs quickly and easily.

REVOLUTION BLOWER CANNON

Controlled power and performance

Capable of delivering 730 CFM (1.240m³/h) at 160 mph (257km/h), the blower features a variable speed trigger with turbo boost and cruise control. Powered by any Flex-Force Battery.

REVOLUTION STRING TRIMMER

Highly efficient and easy to use

With a 0.95" (2.4 mm) line and 16" (40 cm) cutting width, the String Trimmer rips through work, powered by a high-efficiency brushless motor with variable 2 speed operation. Powered by any Flex-Force Battery.

REVOLUTION HEDGE TRIMMER

Class-leading runtime of up to 600 minutes

The Hedge Trimmer has a 26" (66 cm) cutting bar with dual-sided blades and 1.2" (3 mm) cut capacity. A 180° rotating handle adjusts easily for vertical or horizontal work. Powered by any Flex-Force Battery.

REVOLUTION BACKPACK

Comfortable and sturdy backpack system

Tough and comfortable to wear, the backpack holds two Flex-Force Power System™ batteries to extend your range, and includes advanced LED battery diagnostics.

6-POD CHARGER

Repower faster

12 AMP rapid charger to repower any combination of 60V Flex-Force batteries.

Z MASTER® REVOLUTION™ SERIES

GRANDSTAND® REVOLUTION™ SERIES

ELECTRIFYING PERFORMANCE AWAITS

Built on the same tried, tested and trusted **TURBO FORCE®** deck as the Z Master 4000 - Toro's flagship petrol-powered model - the **Z MASTER REVOLUTION** delivers the continuous cutting power you need to lead the charge towards change.

12 mph (19.3kph)
max ground speed*

23.4 kWh
HyperCell 10-battery system

Up to
+7 hours*
of run time

ALL-ELECTRIC, ALL-POWERFUL, ALL YOURS

Powered by the revolutionary HyperCell Power System, the stand-on **GRANDSTAND REVOLUTION** mower features a strong I-beam front-end and full 7-gauge steel **TURBO FORCE** deck with a bullnose bumper. Its durable design also delivers a lower overall lifetime cost.

10 mph (16.1kph)
max ground speed

18.7 kWh
HyperCell 8-battery system

Up to
+7 hours*
of run time

5 YEARS WARRANTY

Trusted durability

Hard as nails and durable. No mean feat, yet one the **Z MASTER REVOLUTION** achieves in style thanks to its I-beam front-end and full 7-gauge steel bullnose bumper.

All-out control

Whether adjusting the deck rake, fine-tuning the blade-tip speed or setting the maximum drive speed, prepare for unprecedented control the second you take your seat.

Comfortably smooth

Patent-pending software in the drive-lever controls enables smooth, reliable handling with no engine lag or bogging in tough turf. Equipped as standard with Toro MyRide®.

Full speed ahead

Power through your day, day-after-day, with all the torque you need, and say goodbye to engine droop and bogging in challenging turf conditions.

Adjustable deck rake

Your mower, your way. Fine-tune your machine to maximise run-time, optimise performance and achieve the highest quality of cut on every job – in every condition.

Precision control

The instant power you need, the superior handling you want and the sharpest cut you deserve. The **GRANDSTAND REVOLUTION's** innovative design also gives you greater control of both ground speed and blade-tip speed.
